

WEB DESIGN & DEVELOPMENT

Services Included:

- o Creation of site design and structure
- o Development of web functionality
- o Upload documents and data to web space
- o Email account set up (if included in your hosting package)

Web Hosting:

The cost of web hosting is the responsibility of the client. Web hosting is simply purchase of a certain number of gigabytes in cyberspace to "host" your website. Expert Business Solutions, LLC, recommends hosting with iPowerWeb Hosting (www.ipowerweb.com, where the purchase of a domain name, unlimited email addresses, a superior admin panel (VDeck), and one year of web hosting costs just under \$100.

Cost:

The cost for web design is a function of the number of pages contained in the site, as demonstrated in the chart below. The base fee covers the front end development of the site (creating a structure and basic design). The cost per page for the first eight pages is \$50; for pages nine and beyond the cost per page is \$25.

# Pages	\$300 Base Fee	\$50 per page (1-8)	Total
1	\$300	\$50	\$350
2	\$300	\$100	\$400
3	\$300	\$150	\$450
4	\$300	\$200	\$500
5	\$300	\$250	\$550
6	\$300	\$300	\$600
7	\$300	\$350	\$650
8	\$300	\$400	\$700
additional pages (9+ pages) \$25/page			
9		+ \$25	\$725
10		+ \$25	\$750
11		+ \$25	\$775
12		+ \$25	\$800
13		+ \$25	\$825
14		+ \$25	\$850
15		+ \$25	\$875
16		+ \$25	\$900

For instance, Expert Business Solutions, LLC's web site at www.expertbizllc.com consists of seven pages. Hence, design and development of the site would have cost \$600.

Editions:

Only a basic understanding of HTML code is necessary to maintain your website. However, future editions to the completed website can also be made by Expert Business Solutions, LLC, at a negotiated hourly rate. Future additional pages are not subject to the base fee.
